

Name, Surname: Ana Bianca Badea
Position: Project Officer
2014-2015

This is my second year as a Board member of YEE. Comparing with my work from the previous mandate, I feel that I have improved and learned a lot. These 8 months were very challenging for me due to the fact that since the second half of the October until the beginning of April I didn't have constant internet connection and I was searching for a rent. Even in those conditions I kept the connection with the Board and the Secretariat. Anja, the Chairperson, played a role key, helping me to keep the track.

Until now (April 2015):

- I reformulated and updated the duties of the Project Officer
- In order to avoid overlapping between my work and the secretariat in the project, we had a better collaboration, we split the tasks and comparing with last year it was more clear who does what
- I've been in contact and offered help to the project teams which I was responsible for and I was updated at every step of the project and also updating the Board and the Secretariat about their development
- I kept updated the Board timetable and calendar with the information on projects
- I've tried to collect the info after the projects were finished for YEE internal use
- I've sent the open call searching for people who want to be involved in the team for creating a document with environmental policies and project policies; the meetings are going to happen in the next 2 months
- At the beginning of the mandate I helped in the selection of the EVS for this year
- In November 2014 Zara and I represented YEE at the General Assembly of the European Youth Forum, which took place in Cluj Napoca
- I've written and submitted the application for "Discovering the paths of the Carpathian Mountains", that was included in the Working Plan 2015
- In February 2015 I participated in the Physical Board Meeting in Prague
- In March 2015, I participated on behalf of YEE at the training course "Environmental Training for Eco-Trainers" from Germany

In the next 4 months that are left I will continue my work. I had a good collaboration with the Board and secretariat, with this occasion I want to thank them.

In case you have any questions, please, don't hesitate to contact me.

Best regards,
Ana Bianca Badea
